- (01) I witnessed the Aircraft make a Normal Approach
(02) to the runway. Everything was good until touchdown.
(03) Aircraft took a hard bounce and went to the left of
(04) centerline and a nose up attitude. Pilot added power
(05) and tried to correct but Aircraft had already
(06) entered a tip stall. Aircraft rolled left, wingtips
(07) appeared to strike the runway and cartwheeled
(08) across the grass strip and taxiway ending up
(09) upside down in the grass in front of Velocity
(10) Aircraft complex

- (01) I was standing in the landing area and looked over to
(02) the west to watch a plane landing. He was wobbly and
(03) when he went to touch down the left wing tip hard dipped
(04) to the left, he tried to straighten out and lost control
(05) It looked like he was trying to take off again and
(06) the plane crashed into the landing area. I approached
(07) the plane and there were pieces of the aircraft
(08) covering the man. ~~the~~ I threw the pieces to the side
(09) and saw that his neck was positioned under his left
(10) side of his body. He was breathing but making death
(11) groans. the plane started smoking and I had no tools
(12) to get him loose. he was pinned in. I ran back
(13) away from the aircraft and then several other jumpers
(14) that are medically trained arrived.

- (01) The noise of the loud landing caught my attention and
 (02) I watched as the left wing impacted the runway. It
 (03) seems the pilot tried to power up for a go-around
 (04) but the aircraft began banking to the left -
 (05) it appeared there was no longer aerodynamic authority.
 (06) There was no cut in power as the aircraft
 (07) lost a 90° bank angle and impacted the ground.
 (08) The left wing tip hit first followed by the nose
 (09) and a "cartwheel". I was 3rd to the scene
 (10) and was concerned with getting the others away from
 (11) the aircraft as ~~there~~ there was smoke and I was
 (12) unsure on the fuel situation. We backed away as
 (13) others arrived and emergency services vehicles pulled
 (14) onto the airfield.
