state the following: My name is Davie Agens; my birthdate is [REDACTED]. I work at Centric Auction located at the Chautauque County Airport. My title is Line Tech. Supervisor. On 6/6/23 at about 11:30Am a Circus Plane landed at the airport and taxied over to the maintenance hangar at Chautauque Airports Sub. A while later, I'm not sure how long the pilot called into the office and wanted refueling. I went out and met the pilot who told me his name was Roger. I pulled the truck out and topped off the plane. I took a picture of the tail number, C-GNMT. I take a picture of the tail number for the fuel records. Roger paid with a Visa Card. I'm not sure what name was on the Card. Once I was done refueling the two guys that arrived on the plane got into the plane and they left. I didn't watch them taxi out or take off. I then went out to my truck and saw after saw a fireball and the parachute from the Circus. I never saw the plane just prior to the crash. The chase is true and given under my own free will. 814-688-2191. DA

NO. & STREET [REDACTED]			CITY/TOWN <u>Lakewood</u>	<u>14752</u>	STATE <u>NY</u>	

state the following: My Name is Thomas M Ahlstrom, I am employed by Windstream. On June 6th 2023 at about 1:52 pm I was working at the Chautauqua County Airport. I was in the North west parking Lot in my work car. I Looked up at the sky to the North East of the Airport and observed a Small plane traveling North west directly towards me. I saw the planes Left wing dip to the south and then back to the other side, I knew the plane was in distress. It appeared to me the Pilot was doing every thing possible to correct the plane. I then observed what appeared to be sparks come out of both wings a split second before the big parachute came out. I then lost sight of the plane and saw a Large fireball come up over the hill. There was only one big fireball and then lots of Black Smoke. I called 911 and advised them of the crash. I walked up the Hill and the fire truck was already there.

state the following: My name is James R. Mortimer, my date of birth is [REDACTED] and I reside at 234 Indiana Ave Jamestown NY. On June 6, 2023 I was riding my bicycle from the Kimbalstand area up route 60 towards Jamestown. Sometime between 1:00pm - 1:30pm I rode up through Girls RD Jamestown to see if any planes were landing or taking off. Usually there's no activity. I got to the end of Girls just before it curves north away from the airport. That is when I heard the engine of a plane. I spotted the plane departing and at this point it was a few feet off the ground but climbing. The plane began to bank slightly towards the pilot's left. Then it went into a sudden steep bank. At this point the plane was still not far off the ground, no more than 200 feet, which I thought was odd. Pretty after that the plane leveled off. The plane then made a turn to their right. The plane did not climb any further and shortly after I saw the plane's parachute deploy. The plane went down almost immediately after. That's when I saw a big ball of fire and heavy smoke.
