

Aaron McCarter
Aviation Accident Investigator
Eastern

Date: June 12, 2023

Subject: ERA23FA266; Skydive the Falls Security Video

Contact: Jason Berger (Owner of Skydive the Falls) @ [REDACTED]

On June 12, 2023, the owner of the business provided the NTSB Investigator with access to a security camera video that showed the pilot conducting his preflight. In the video, the accident airplane N85TP was on the left and the blue fuel truck was on the right. A Cessna Caravan was in the staging area. The pilot was conducting his walk around and inspecting the airplane. (Figure 1) An additional video was viewed at the operator's business during the on scene investigation; it showed the airplane start up and taxi but did not show the actual flight as it was out of frame and the camera only operated if it sensed movement nearby.
