Narrative		
Upon my arrival to the scene I could see the plane partially submerged in the water at the end of a sandbar. I interviewed Matthew Clemente who stated he had flown from Albany to the Northampton Campground area to have breakfast with friends and they do it often. Clemente stated when he went to takeoff he was going from north to south. Clemente stated when he got to the area where the lake opened up he lost lift due to the wind. Clemente state he was approximately 3 feet off the ground at the time. Clemente stated when he wen back to the ground he was not going to be able to stop so he proceeded to skid across the water and when he got to the south side of the channel his wheel caught the water making the plane flip. Clemente stated all three occupants were able to exit the plane. Deposition taken by Tpr Orcutt.
