Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Damage to 1 prop blade tip, Landing gear fairings, empennage dents, trailing edge rudder damage. Engine fire damage.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I did pre flight inspection, taxi to rwy 5, did run up and took off from rwy 5. At approximately 500 ft AGL started to make left turn and at approximately 600 ft AGL I heard boom and lost all power. I immediately established glide speed and the only option I had was to land on hwy 296. I did all I could to get the plane and passengers on the ground safely. On the roll out i steered to Advance Auto Parts parking lot and evacuated passengers and myself from airplane safely. There was a smoke from under engine cowling, an employee from local business came with fire extinguisher and I grabbed my extinguisher in airplane and we put out smoke.

RECOMMENDATION (How could this accident/incident have been prevented?)
