

Investigator Name: Leah D. Read, Sr. ASI

Division: ERA

Date: November 29, 2022

Subject: ERA23LA043

Contact: James Vaughn

Summary of Email

Mr. Vaughn sent an email regarding the damage assessment of his airplane. He said, *"The sheet metal shop looked at the wing and he believes that the outboard end of the spar is bent. Accordingly, I have located another wing on the field here in Thomaston. The other wing did not sustain any major damage. Minor dents and fiberglass tip broken. If you need to look at the airplane, let me know and I won't proceed with replacing the wing until you look at it."*
