

MEMORANDUM FOR RECORD

Joshua Young
Air Safety Investigator
Eastern Region Aviation

Date: 12/01/2022
Subject: ERA23LA051, Mechanical Malfunctions or Failures
Contact: Usman Khan, Pilot In Command

Mr. Khan was contacted by email December 1, 2022. He was asked if there were any mechanical failures or malfunctions that would have prevented the aircraft from operating normally. He responded that the only anomalies were a fluctuation in oil pressure and temperature gauges but that they wouldn't affect the aircraft's ability to operate normally.
