☐ Unknown

Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Landing gear collapsed / repaired
wing damage
No property damage

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

I departed runway 16, KJZP around 3pm Nov. 4. Sky was clear, visibility was good and wind was light. I turned out to the left (east). I was climbing and I estimate I was 5 miles from the airport at 4500' when the engine began running rough, then quit running. I immediately turned around, thinking I could make it back to the airport. The prop was windmilling so I put the mixture to rich with no change. I cycled the left and right ignitions with no change. At that point I just focused on flying. I arrived back at runway 34 too low to make the turn to the runway. As I tried to turn onto 34, I lost lift and dropped 30 or so feet down onto the landing gear, which collapsed. I slid through the grass and came to a stop before I reached the taxiway. I estimate I had 12 gallons of fuel remaining and the recovery crew took out 13 gallons.

No services obtained at JZP. Going to RHP

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Try to turn sooner/flatter

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)Was there Mechanical Malfunction/Failure? ☒ Yes ☐ No
(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)
