Federal Aviation Administration Inspector Interview

A. Accident ERA23LA080

Location: Woodsfield, Ohio
Date: December 5, 2022
Time: 1109 Eastern Standard Time (EST)
Aircraft: Kitfox S5
Registration: N257ED

B. Federal Aviation Administration Inspector

David M. Schluep
Columbus Ohio FSDO

FAA Inspector Schluep was contacted by telephone on December 16, 2022 @ 0815, he stated that he examined the airplane at the accident site and discovered the following:

- The tire marks on the runway appeared to be from the right wheel and it appeared the tire was rolling not skidding.
- The pilot did not mention any preflight issues with the brakes prior to landing.
- Both brakes were examined and found to function normally.
- Both tires were examined, and no flat spots were visible on either tire.
