

Joshua Young
Air Safety Investigator
AS-ERA

Date: February 8, 2023

Subject: ERA23LA124, State of fuel recovered

Contact: Nina McBride, Air Safety Inspector, Federal Aviation Administration

In a phone call with the IIC Inspector McBride was asked how much fuel was recovered from the intact fuel tank to which she responded about 9 gallons. She also reported that the fuel was the color and odor of 100LL aviation fuel and that no contaminants were noted.
