The following was emailed to the IIC after a request was made for any fuel records relating to the accident airplane, N330PC, at Sky Park Estates, 18FD, the pilot's home field.

"I managed to get to the fuel sales records for Sky Park Fuel Inc, which is a self serve fuel system at Sky Park Estates (18FD). Sky Park Fuel is not open to the public, but sells only to aircraft based at Sky Park.

Chris Foltz last purchased fuel on 16 Jan 2023 as shown on the screen shot of the fuel log, purchasing 13.9 gallons.

Many others purchased fuel in the same time frame, including same day as well as before and after that date - thus far no one has reported contaminated fuel."

Also included was the following photo of the pilot's last fuel transaction:

18	1/16/2023	Foltz	64	13.893	\$67.38	\$4.85	13.90	\$67.42
19		Foltz Total					13.90	\$67.42
