Hobbs: 1287.6

Removed propeller and engine due to crack in engine case. Installed engine after case replacement by Mid Valley Aviation see previous entry for details. Engine baffle seals. Installed propeller governor with new gasket P/N MS9144-01. Installed all previously used accessories not installed by Mid Valley. Compressions (#1) 77/80; (#2) 62/80; (#3) 76/80; (#4) 78/80; (#5) 68/80; (#6) 77/80. Cleaned, gapped, tested and rotated all spark plugs. Magnetos had fresh 500 hour inspection when installed by Mid Valley. Tested all high tension leads. Engine had oil in it from test run. Test ran and leak checked. C/W AD 96-12-22 oil filter adapter assy per instructions next due at filter change. All AD's checked thru 21-17. I certify that this Engine has been inspected in accordance with an Annual/100 Hour inspection and has been determined to be in airworthy condition. Returned to service.
