Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Propeller (Destroyed)
Engine (Damaged)
Right wing (Destroyed)
Landing gear (Damaged)

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

When I was coming in to land at Miami Executive, I did the pre landing checklist including GUMPS (Gas, Undercarriage, Mixture and Prop). Upon arriving I verified that the landing gear was down and locked by making sure there was three green lights. When I reduced the power for landing there was no additional warning horn as there would have been for an unsafe gear condition. Upon touchdown the right main gear appeared to collapse. I immediately put in opposite rudder and tried to keep the aircraft on the runway but it veered off towards the grass, I communicated with the tower and performed the shut down checklist making sure there were not any other safety concerns. There were not any other souls on board so I remained away from the aircraft until the emergency vehicles arrived.
