Subject: ERA23LA218, O-Ring Exam

The hydraulic power pack along with the check valve and its O-rings, was returned to the NTSB on June 6, 2023. On June 9, 2023, I examined the two tears that were observed on the O-rings during the check valve examination at Cox Airparts. Utilizing a 30X power magnifying glass, I was unable to determine the direction of the smaller tear that was in the middle of the O-ring.
