Subject: ERA23LA206, MX, fueling records and 6120 request

Contact: Brian Cole Allers, Pilot/Airplane owner

During a telephone conversation with Mr. Allers, I informed him that I was the lead investigator for NTSB on this accident event. We went over the accident event, and I informed Mr. Allers that I would be sending him a NTSB 6120 accident form to be filled out. I asked Mr. Allers to also send me copies of the maintenance and fueling records for the airplane. The records were never sent in for review, but the 6120 was returned for review.
