Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Aircraft impacted the ground, nose down. The propeller came off the aircraft. The engine mount and frame were bent.

No other damage to property aside from accident aircraft.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

The Pilot departed Runway 10L at HWO at approximately ~11:55 local time on May 25, 2023 to conduct a banner tow operation along the south Florida shoreline followed by a return to HWO. The aircraft departed with full fuel - 75 gallons. Pilot entered the left "banner tow" traffic pattern after take-off and deployed the hook over the banner field so that the ground crew could verify a proper deployment. The Pilot attempted to "pick" the banner twice and missed - not an uncommon occurrence. The accident occurred just after the third, unsuccessful, pick attempt. The Pilot performed what appears to be a normal descent to pick the banner. As the Pilot pitched up after missing the banner, video footage shows him making a left turn abnormally low, ~100 feet. Just after this turn, approximately 300-500' from the banner approach centerline, the aircraft entered a spin and impacted the ground at ~12:07 local time.
