

Adam M. Gerhardt
Senior Aviation Accident Investigator
Office of Aviation Safety, Eastern Region

Date: August 24, 2023
Subject: ERA23LA329
Contact: MIKE SEMANOFF (PILOT)

The individual noted above provided the following information via an email. The below contents are a summary of what was reported:

I don't think there was any mechanical malfunction. Just me being unfamiliar with the airframe and getting into a stall situation. The thing I really remember is a tree in front of me that froze my mind and delayed a proper stall recovery while it was recoverable.
