

Ralph E. Hicks
Senior Air Safety Investigator
AS-ERA

Date: 8/22/2023

Subject: Memorandum of Record: ERA23FA342, FAA Inspector Cornelius (Neil) Baker Statement

Mr. Baker will be the FAA coordinator for the accident. He stated that he had a video taken by a local TV station that he will forward. The flight was a local flight following an annual inspection, completed on the 17th. The mechanic who performed the annual inspection was one of the occupants, along with the pilot/owner.

I informed Mr. Baker that the wreckage was going to be recovered to Atlanta Air Recovery in Griffin, Georgia and I would coordinate for a wreckage exam at a later date.
