

Aaron McCarter
Aviation Accident Investigator
AS

Date: October 30, 2023

Subject: ERA23LA390: Failure to contact pilot after numerous attempts.

Contact: Pilot: Jessie Ward @ [REDACTED]
[REDACTED]

FAA ASI: Angel M. Negrón

On October 30, 2023, the NTSB ASI (McCarter) attempted to make contact with the pilot via e-mail and phone. Over a period of several weeks, phone calls were made to the pilots contact phone number and messages left. No response was received, and the emails with the 6120 accident report was not acknowledged.

McCarter discussed the issue with the FAA Inspector (Negrón) who was also unable to make subsequent contact with the pilot. According to the FAA, "the PIC has been unresponsive, the aircraft was recovered by him (unauthorized) the day after the accident and no photos or pilot statement was provided after multiple contact attempts."
