ERIC BIGON			RAC
SUBJECT N6659L accident eye witness			
DIGEST			
Called [REDACTED] and left a message at 1005			
Returned call at 1006			
Eric stated that he was driving South on US19 and was approximately at Sunset Pointe Rd near Thresher stadium when he saw an all White light falling from the sky west to east. His original thought was a falling star and then thought it was an airplane landing but the angle was too steep. Maybe it was a helicopter. Realizing later that it was an airplane crash he sent an email to NTSB to try to help. He reiterated that it was a super clear white light and did not appear to be any other color that may indicate a fire. He stated he was too far away to hear any noise from the aircraft. The witness had his windows up and was on a phone call. Call ended at 1015. RAC			
The witness as approximately 1.75 nautical miles to the north om U.S. 19. The witness was facing south. Approximate bearing of 174 93 degrees to the crash site
