The pilot had his ForeFlight set to generate a PDF briefing (instead of the HTML format we typically see) and that PDF briefing is attached.

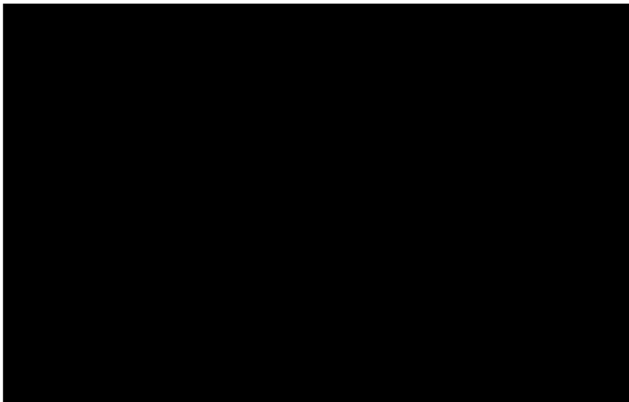

Prior to the flight the following Weather Imagery was viewed. ForeFlight does not retain archives of the actual Weather Imagery, so the images at the links listed below are current as of the time the link is clicked.

Subject: NTSB request on N47WT

Paul Suffern

May 15, 2024, 13:46 CDT

Good afternoon,

I just picked up the fatal accident near Nashville, Tennessee, from this afternoon (15th). It was N47WT and Beechcraft BE35. The accident occurred around 1202 CDT (1702 UTC). Any check of ForeFlight (flight plan or weather briefing) would be great to have. We don't have the pilot(s) name yet. Have a good day,
