

MEMORANDUM FOR RECORD

Todd Gunther
Air Safety Investigator
Eastern Region

Date: 10/29/2024

Subject: Carburetor Heat Information Provided by William Stewart (Student Pilot)
NTSB Case Number: ERA24LA010

On this date during an email exchange and follow-on telephone conversation with this investigator, Mr. Stewart advised that he had checked the carburetor heat during the runup prior to takeoff.

When asked where he learned to do this, he advised that his flight instructor had taught him to do it.
