Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Post-landing fire destroyed most of the aircraft.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Aircraft departed KDKX at approximately 19:30 Eastern for a SE departure toward KMYR. Aircraft was level at 7500' MSL when the pilots began to experience engine roughness coupled with a loss in oil pressure and an ECU warning message. The student pilot immediately transferred flight controls to the instructor pilot who flew the aircraft while the student pilot ran checklists and notified AVL approach. There was an initial engine failure, then a restart, then another engine failure, followed by another restart. There was then then a knocking or metallic engine noise coupled with an engine failure from which the engine could not be restarted. Smoke entered the cockpit and the pilots determined that they could not make the nearest air field (KAVL) so an emergency landing was performed with flow of traffic on I-26. Just prior to touchdown on highway, the aircraft wing struck power lines. Both pilots were able to exit the aircraft & received medical assistance shortly after. The aircraft was destroyed from the post impact fire.
