

Timothy W. Monville
Sr. Air Safety Investigator
Office of Aviation Safety-Eastern Region

Date: April 8, 2024

Subject: ERA24LA100, Aircraft or Aircraft Systems Warnings or Malfunctions
Prior to Touchdown

Contact: Josh Newsteder, VP of Operations/Director of Operations, Volato
LLC.

While awaiting damage classification, for a NTSB work plan the operator VP of Operations/Director of Operations was sent an e-mail on January 30, 2024 at 0916 EST asking, "Sir, good morning. As soon as possible today, if possible before 1200 EST please let me know if there were any aircraft or aircraft systems warnings or malfunctions prior to touchdown."

He replied the same day at 0944 EST in part with, "...Additionally, the crew reported no mechanical irregularities for this aircraft during this flight and landing."
