

Kurt Gibson
Aviation Accident Investigator
Office of Aviation Safety, Eastern Region

Date: 03/20/2024

Subject: ERA24LA113

Contact: Hyeongjun Jeon - Pilot

The following is a summary of a phone interview with Mr. Hyeongjun Jeon:

The pilot was asked if he had departed from 9R at Q before. He responded that this was his first time departing from that particular intersection. He was then asked how much time did he have in the Piper Archer at night. He responded that he had approximately 8 hours of night time in the Piper Archer. He was then asked if he felt any time pressure to complete the flight due to there only being 2.7 hours left until the next inspection. He responded that he didn't feel any time pressure to complete the flight since the lesson should be completed before the 2.7 hours elapsed.
