

Daniel Boggs
Air Safety Investigator
Eastern Region Aviation

Date: **3/11/24**

Subject: **ERA24LA133**

Contact: **Evan Behea , Student Pilot,**

Mr. Behea was interviewed by telephone.

Mr. Behea stated that he is a student pilot. He was landing on runway 5R when a gust of wind pushed the airplane to the right after the main wheels touched the ground. After the nose landing gear made contact with the runway, he was pointed towards the visual glide slope lights. The airplane went through the lights and substantially damaged the leading edges of both left and right wings.
