

Ryan Enders  
Aviation Accident Investigator  
Eastern Region

**Date:** May 13, 2025

**Subject:** ERA24LA139 Recovery Process and Defueling

**Contact:** Josh Daniels, Anglin's Aircraft Recovery

On May 13, 2025, Mr. Daniels was asked via text message to review his records for information on the recovery of N59MK.

The IIC attempted to call Mr. Daniels but received his voicemail. A follow-up text message was sent by the IIC on May 13, 2025, at 1102 asking him to review his notes on the recovery and defueling of N59MK.

Mr. Daniels called the IIC back at 1152 stating that his personnel recall removing "4 or 5" gallons of fuel from the right wing of the airplane and less than a gallon from the left wing.
