March 22, 2024

3 PM March 16th, 2024, we left KSSI VFR direct to KDBN [home airport] Engine is running fine all gauges normal. Approximately 30 minutes into flight the engine made a loud noise and stopped running, oil started coming out of the cowing and covering the windscreen. I established the best glide, turned toward Reidsville airport [KRVJ] which is directly off my right wing approximately 10 NM. I called Jacksonville Center to declare an emergency, I told them my tail number and type aircraft and informed them we would have to deploy the chute. I was at 4500' so I could not make the airport, do not know how well I could have done with the very limited forward visibility anyway. At the time of the engine failed I was directly over the Altamaha River which was at flood stage. I did not want to come down in the river or the swamp. I was able to glide 3 to 4 miles before I reached the recommended lowest level for the Shute deployment and was over some 12-14-year-old planted pines. I then deployed the Shute and we landed or crashed into the pines.

Neither myself nor my wife nor dog sustained any injury, Once I was able to get myself and my wife out of the aircraft, I called Jacksonville Center by phone and gave them my GPS coordinates and dropped a pin to help locate us. Our ELT transmitter was going off also. The air force picked this up and called Reidsville also We were on the back side of 900 acres hunting club which had hunting trails on it we found one of these hunting trails and started walking out. Around 2 hours after we crashed, we came upon some Fire Dept. folks that were searching for us.

The next day [Sunday] The Tatnall county sheriff's dept was able to find the plane. It took them around 2 1/2 hours even knowing the general area and the dropped pin.

All search and rescue did a great job, if was to complain about anything it would be the lack of an air search. The plane probably could not be seen from the air, but the chute was on the top of the trees and very visible. The way the Sheriff's office finally found it was the use of a drone that was owned by a volunteer fireman. The Sheriff's dept. did not own one.

Sincerely,
