

Daniel Boggs
Air Safety Investigator
Eastern Region Aviation

Date: 5/30/24

Subject: ERA24LA159

Communication attempts

Several attempts were made by telephone and email to the pilot/owner, James Betts, in an attempt to reexamine the engine and external oil system for failures.

4/29/24, email attempt to Mr. Betts and coping in Jordan Paskevich, Rotax engines, to set up an appointment to look at the engine again, this was after a verbal conversation I had with Mr. Betts while I was at his house examining the engine on that day.

5/15/24, email from Jordan Paskevich to the James Betts trying to schedule a meeting during the week of June 3-7th while Jordan was down here in Florida for another examination,

5/17/24 or around this date, a phone attempt was made to James Betts by me to arrange another meeting for an examination.

5/21/24, another email attempt was made by me to try and schedule a meeting during the week of June 3-7th.

No return phone calls or email received.

Daniel Boggs.
