Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Flight of N3777...

After completion of an annual inspection, it was determined that a test flight of N3777 should be conducted.

Determining factor for the test flight...long period of inactivity of the aircraft.

A normal departure was conducted from runway 22 at HYW.

A climb was initiated to 2500ft over HYW.

Upon reaching 2500ft, system checks of the aircraft were conducted.

All systems appeared normal.

A descent was established to enter HYW's traffic pattern.

A normal approach to landing was made to runway 22, with gear and flaps extended.

Upon landing, the aircraft settled to the runway, and skidded to a stop.
