

TO: Timothy W. Monville,

Sr. Air Safety Investigator

FROM: Jonathan Wren A&P/IA

SUBJECT: N22NK Tail Wheel Assembly.

I have inspected only the tailwheel and tailwheel assembly and cables; I have determined that there is adequate tension on the rudder cables. I have determined there is no abnormal wear of the wheel and tailwheel assembly. I have determined that all components of the assembly, including bearings, springs and cable attachments, are in working order and are in an air-worthy condition.

Respectfully,

Jonathan Wren [REDACTED] A&P/IA 10/06/2024
