Subject: ERA24LA356, Additional information for 6120.1

Contact: Lloyd Murphy, Pilot

The following is additional information provided by the pilot to me via email correspondence to clarify some missing information in the 6120.1:

Q: What was the date of the last annual performed? And what was the hobbs time at the time of inspection?

A: Last annual was June 2024

Q: You indicated that a 3-point seatbelt was available but did not indicate what you were using at the time of the accident for both you and your passenger. Were you both utilizing the 3-point system on landing?

A: Yes we were both wearing the 3 point harness.

Q: I need some clarification on the route of flight. You have it listed as LKU to CRW from 1330 to 1800 which would give you an enroute time of 4:30 which seems excessive for that itinerary and fuel on board. Could you help clarify please?

A: KLUK TO KCHO, was on the ground about an hour. picked up Chet, my passenger. then departed for KCRW
