

Joshua Young
Air Safety Investigator
AS-ERA

Date: 6/5/2025

Subject: ERA25LA375, Type of Aircraft Operations

Contact: Janet Miles, President, Miles Flying Service

Ms. Miles was contacted on June 3, 2025, by the IIC with the following question about the type of operations the accident airplane performed.

"I know at the time of the accident they were performing aerial seeding of cover crop but was the airplane also used for aerial spraying of fertilizer, herbicide, pesticide, etc. throughout the season?"

She responded on June 4, 2025, stating the following.

"Yes, sir, Spraying and fertilizing is our main source of revenue."
