

Joshua Young
Air Safety Investigator
AS-ERA

Date: 4/16/2025
Subject: ERA25LA003, Pilot Questions
Contact: Alex Tsunis, Student Pilot

Mr. Tsunis was sent questions by the IIC via electronic mail which are below:

1. During either of your flights the day of the accident did you lean the mixture?
 - a. If so, what were you using as your reference for leaning the mixture?
2. How often does the G1000 notify you to switch fuel tanks?
 - a. What is this based on? I.e. time, fuel consumption, some other means.

Mr. Tsunis' responses to those questions are below:

"1. I did not lean the mixture as we were below 3000ft

2. The g1000 notifies every 30 minutes. It is on a timer "
