

Date : 10/27/24

Location of incident : 10 NM SE of KCMC

After departing OSU Medical Center en route
to AE 101 Base in Lancaster OH

at 1430 at 2800ft in cruising

a bird hit the A/C from 12 O'clock

was higher, possibly a goose

could not avoid the impact

A severe vibration occurred after

the impact, decided to land

immediately at an open field.

After a walk around, the A/C was
secured and a noticeable bent

in one PCR was observed as a

result of the impact
