Dear Michael Hummel:

Accident 10/31/2024:

I had been previously working with my instructor Leigh Smith Starting Tuesday October 29, 2024. I brought him out from Indiana due to his specialization on Cessna 195, and 180/185 Types. I needed to wrap up a tail wheel endorsement, I needed to receive a high performance endorsement, and I needed to get transitional training in the Cessna 195. The training went very well. In the morning of the 31<sup>st</sup> Leigh and I talked about BFR ground school items, He signed off my BFR, my high performance endorsement, and my tail wheel endorsement. He said we could go around the area and fine tune my skills at various airports. We did several stop, taxi back and takeoffs at N47 Pottstown Municipal on Runway 26, that went very well. Then we decided to go to Grimes 8N1. We did one wheel landing using runway 29, that went well, took off for a second landing which was a three point. The second landing bounced slightly, made a small deviation to the left, I then corrected to the right. At this point unfortunately, and with major disappointment, tried to correct back to the left but could not stop the right turning momentum and the plane ground looped to the right. Braking the left gear leg in the process, consequentially dropping the left wing to the ground. This happened about 10 AM in the morning. We notified the FAA, the airport Owner, to notify them both, of the accident and to NOTAM the airport closed. Both the FAA and Owners of the Airport had representatives came on site to look at the scene. After the FAA released the site I had a recovery come to the site and remove the damaged aircraft to a safe location. The owner then called to the agency to reopen the airport.

Sincerely,

Michael Bachmann
