Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

My aircraft sustained minor damage, limited to the propeller, which was struck by the other aircraft. The other aircraft's right wing, however, sustained substantial damage.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On December 14, 2024, I was taxiing my Piper PA-28-181 Archer, tail number N8454H, from the flight school to the taxiway at Old Bridge Airport (3N6). As I was waiting for another plane to take off, the pilot of that plane lost control and collided with my aircraft, striking the propeller with their right wing. The impact caused significant damage to the propeller and resulted in the engine stopping. Fortunately, the accident occurred on the ground, and I was not injured. The other pilot was also uninjured. The accident did not result in a fire or any other hazardous conditions. I want to emphasize that the accident was not a result of any action or inaction on my part, but rather the result of the other pilot's loss of control.

OPERATOR/OWNER SAFETY RECOMMENDATION *(How could this accident/incident have been prevented?)*

Given the circumstances of the incident, where my aircraft was stationary and clear of the taxiway, I do not believe there were any actions I could have taken to prevent the collision. The incident was a result of the other pilot losing control of their aircraft.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No
