Description of Damage to Aircraft and Other Property (Use additional sheet, if necessary.)

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink.)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On 2/23/2025, I was PIC of N40DJ, departed KLNA approximately 11am enroute to Gainesville airport, with a planned refueling stop at Tavares seaplane port. The weather was excellent and no mechanical issues were noted. There was one passenger aboard, Mr Richard Hart.

I attempted a landing near FA1 (Tavares). Winds were reported at Leesburg as variable at 4mph. Prevailing wind appeared to be from the east. I set up a water landing with a heading of approximately 90 degrees, avoiding boat traffic. With gear up and flaps at 30deg, IAS 60 mph, I touched the water, bounced/skipped slightly (1-3'?), opted not to go around, and at the next contact with the water the cabin was dark and submerged. Either the water came up (boat wake) or I let the nose drop.

We both independently immediately exited the plane and surfaced. We were rescued in minutes by bystander boats which took us to the Tavares ramp.

OPERATOR/OWNER SAFETY RECOMMENDATION (How could this accident/incident have been prevented?)

more training regarding the importance of keeping the nose up in water landings.
