SUBJECT N347M Accident			
DIGEST			
Mrs. White stated that Mr. White (pilot) and her son were in the front seats. Mrs. White was seated in the middle row behind the pilots seat. Mrs. White's daughter and her friend were in the rear seats. Baggage was loaded in the rear baggage area and on the floor where the right side middle row seat was removed. Baggage consisted of her son's clothes for the week at college a guitar, and an backpack sized overnight bag for each of the other 4. The takeoff roll seemed normal, as soon as the airplane left the ground the front door popped open. Mr. White continued to fly the airplane and called the tower requesting to return and land. Mrs. White's son was holding the door. Mrs, White stated that as Mr. White started to turn, the airplane began shaking and she knew they were going down. Mrs. White remembers the initial impact and fire and then it was quiet. She said when the airplane stopped that she was in a daze and looking at the floor. She saw the fire extinguisher and attempted to get it but couldn't. She then heard Mr. White yell her name and she looked up. Mr. White and her son were out of the airplane and the 2 girls were trying to get out. The daughter's friend had her leg stuck and couldn't get free, Mrs. White freed her leg and the 2 girls got out. Mrs. White was last to exit the airplane.
