Description of Damage to Aircraft and Other Property (Use additional sheet, if necessary.)

The propeller was bent. The skin of the nose of the aircraft was wrinkled from the sudden stop. The left landing gear was disconnected. There was no damage to airport property.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink.)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On Friday, February 28, 2025, I took off, at about 1330 from Sarasota Airport. I was on a personal flight. At about 1440 hours I came in for a landing at Arcadia Airport where I hit a thermal which moved the tail of the aircraft off the centerline. I was in the process of realigning the aircraft when it skidded off the runway. I ended up in the grassy area between the runway and the taxiway where it nicked a concrete drainage culvert. I had intended to return to Sarasota International Airport.

OPERATOR/OWNER SAFETY RECOMMENDATION (How could this accident/incident have been prevented?)

Keeping the tail aligned with the centerline of the runway.

By signing this form, I am consenting to the public release of the information provided herein.
