Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

Airplane left wing was damage by the impact with a pine tree

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On March 12, 2025, at 2:40 pm, we departed from Orlando Executive Airport (KORL) on a survey mission west of Vero Beach area at 1.900 feet agl. After completed the Take off Check List, we taxi to Runway 25 for a left downwind departure, the take off and climb was normal, we level off at 1.800 feet on a South East bound heading, then about 12 miles South West of Orlando Executive Airport the engine suddenly stop running and it was a total power failure, after this happened, we declare an emergency with Orlando Executive Tower and follow the power out procedures from the check list and located the best available place for an emergency landing, it was a dirt road next to a canal, the approach and touch down was normal but the road was un even and it has many pines trees on the left side of the road, after coming to stop, we notice the left wing impacted couple trees and damage part of the fuselage and caused a fuel leak into de cabin, the pilot side door was crushed shut, so immediately we move into the back of the cabin to force open the back cargo door, we finally escaped the airplane and moved to a safe distance away, in approximately 10 minutes after the accident, a police helicopter over flew the area and then few minutes later the police and fire department arrived to the scene

OPERATOR/OWNER SAFETY RECOMMENDATION *(How could this accident/incident have been prevented?)*

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)Was there Mechanical Malfunction/Failure? ☒ Yes ☐ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)

Total Time/ Cycles On Part

_____ Hours

_____ Cycles

Time Since This Part Inspected/Overhauled

_____ Hours

FUEL & SERVICES INFORMATION

Fuel on Board at Last Takeoff

(Convert from pounds, as necessary)

108.0 Gallons

Fuel Type

☒ 100 Low Lead☐ Automotive☐ Jet A☐ Jet A-1☐ Unleaded AV☐ Other, specify _____

Other Services, if any, prior to departure:

EVACUATION OF AIRCRAFTWas an emergency evacuation of the aircraft performed? ☒ Yes ☐ No

Method of Exit – Describe how the occupants exited and how many occupants evacuated each location:

The Pilot and sensor operator were the only occupants. Evacuated from the cargo door in the back of the cabin

OTHER AIRCRAFT – COLLISION (If air or ground collision occurred, complete this section for other aircraft.)

Aircraft Registration Number

Manufacturer: _____

Damage to Other Aircraft:

☐ Destroyed☐ Minor☐ Substantial☐ None

Model: _____

Registered Owner of Other Aircraft

Pilot of Other Aircraft
