Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Aircraft - All wings, cabin exterior and interior, all windows and fire damage to pilot side.
Property - A few ground (dirt) scrapes, tree scraped, all plane parts cleaned up from area.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

The air flight from KAJR was smooth, I had Davis Field in sight approximately 12 miles out and cancelled IFR with Jax ATC and with clearance to switch to the CTAF and made the radio calls.

I flew over mid field at 1600 feet to see the wind sock to confirm my wind direction to chose the landing direction which was 01. I entered right downwind for 01. I Started the landing check lists, procedures, actions and redid them numerous times as I turned right base and final. No crosswind or turbulence was felt during any of these times of landing. I rotated for landing, heard the stall horn (which is normal landing sound for correct speed after rotation) and then, unfortunately, I do not have any memory of the remaining details or decisions I made for the remaining items that took place with the landing accident. I was trapped and unconscious until a recue fireman removed me and then I was life flighted to the hospital in Jacksonville. I have no memory of this time. I became aware of what had happened two weeks later when I was moved to the rehab hospital and I'm very thankful for the grace and mercy that God has done for me and my family!

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

At this time I do not have any of the accident details to make any recommendations or to suggest how to or try to prevent. I plan to have this information in the future to teach myself and be able to do this for others.
