Description of Damage to Aircraft and Other Property (Use additional sheet, if necessary.)

No property damage but aircraft was destroyed. Substantial damage to the body, wings, engine & prop. Aircraft went nose first into ground.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink.)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

At around 12:00PM EST Tony and I came in on the approach to a privately owned grass strip outside of Kingston, OH. We carried too much speed coming into land and floated past the intended point of landing and we were not going to have enough runway left to safely land. At that point I announced that I was executing a go-around. During the go-around full power was applied, carb heat off and then shortly after a reduction of flap setting from 30 to 20 degrees. The airplane was not climbing at a rate that was going to clear the power lines on the north side of the field, once I determined we were not going to clear the obstacle, I made a turn to the left to fly away from the power lines. During the turn we did not have enough airspeed to sustain flight and the airplane stalled into the ground.

OPERATOR/OWNER SAFETY RECOMMENDATION (How could this accident/incident have been prevented?)

This incident could've been avoided by having a better brief of the go-around procedure if it was needed and also by making myself aware of all details of the grass strip before committing to the landing.
