NARRATIVE HISTORY OF FLIGHT (Please type or print in ink.)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

During the touchdown to rollout phase of my full stall landing on runway 4 at Punta Gorda Airport, my beautiful Luscombe did a slight bounce and veered to the right approximately 20 degrees. I made appropriate left rudder input, with no effect. I then tapped the left brake which started bringing the nose back to center line. Instantly, I was staring straight down at the runway. The aircraft continued forward rotation onto the nose ending up on its back, facing the opposite direction. This was the fourth and final landing of my morning outing.
