Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

Total Loss of Aircraft.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

This flight was to evaluate the Annual Inspection with Scott Reilley my A&P 3361801. Scott always volunteered to do a Airport flight after each Annual Inspection to verify work done. On 5/7/2025 at about 3:15pm during Pre-flight check I pointed out to Scott that the level of Spirax Oil in the Prop Window was only 15-20% full but Scott said it was okay for the upcoming short 30 minute flight. So we went on the flight around the KTTA Airport to verify Annual Inspection check. On the first go around no issue. I told Scott I would do a touch and go on the 2nd go around the airport. Since runway 21 was shortened from 6,500 to under 5,000 I landed quickly and hoped a bit then took off for a 2nd trip when lifting off Scott said did you hear that pop and I said no. I noticed a RPM loss and Power Loss so I set the plane to avoid the Trees ahead and attempt to return to Runway 21 or the reciprocal and same runway Runway 3.

I made a Crosswind turn and headed North. At this point I knew I was going to land in the grass but do not recall anything from this point since after hitting the ground I was unconscious, and Life flighted by helicopter to UNC Hospital.
