

Fort Lauderdale Executive Airport

Ops Report #84 - Alert Report

Background and Contact

Type of Incident	Start Date/Time	End Date/Time
Alert 3	07/09/2025 23:50	07/10/2025 02:54
Description of Event On Wednesday, July 9, 2025 at approximately 2350L, Piper PA-34-200 Seneca (N1293T) landed RWY 9 with no landing gears deployed. The aircraft made first runway contact approximately 300FT west of TWY A4. There did not appear to be any tire marks prior to the start of asphalt scoring from the propellers. The aircraft slid to a stop, without leaving the runway surface, in the intersection of RWY 9/27 and RWY 13/31, causing both runways to be closed. No airport electrical infrastructure was damaged but there was light asphalt scoring and scrapes on the surface of RWY 9/27. FSDO Robert Perez was assigned to the incident and cleared the aircraft for recovery at 0039L. Westway Towing was dispatched and arrived at 0155L. Westway used a rotator crane truck to lift the aircraft, and the pilot deployed all of the landing gears. The aircraft was towed as normal to Atlantic East on the S-ramp. Both runways were inspected and returned to ATC at 0254L. The aircraft was operated by a student Ziyad Abdullah A Alghrabi (Cert#: [REDACTED]) and instructor Jack Anthony Jergovich (Cert#: [REDACTED]). There were 2 souls and approximately 20 gallons of fuel on board. There was no HAZMAT and no injuries.		
Incident Location	Runway Downtime	Weather
Intersection of RWY 9/27 & RWY 13/31	RWY 9/27 and RWY 13/31 down from 2350L - 0254L	VFR, clear skies, light breeze from the southeast at approximately 8-10Kts.
Parties/Agencies Involved	Phone Number	Associated Tenant
FXE Ops, FXE Security, FXE ARFF, FSDO	Instructor: Jack Anthony Jergovich [REDACTED]	Atlantic Aviation
Notification Date/Time	Souls on Board	Fuel Quantity
07/09/2025 23:55	2	20 Gallons Fuel Remaining
