☐ In-Flight ☐ Fire at Unknown Time
☐ On-Ground ☐ Unknown

Aircraft Explosion

- ☒ None ☐ Both Ground and In-Flight
☐ In-Flight ☐ Fire at Unknown Time
☐ On-Ground ☐ Unknown

Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

The helicopter landed into about 4 feet of water. It then rolled over onto its left side and the main rotor blade hit the water and stopped. The main rotor blade bend. While the helicopter was being recovered (by being dragged out), the lower part of the rear tail fin was bent (see pictures).

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I was coming in for a landing over water into my front lawn. As I slowed down, I lowered the collective to prevent the helicopter from gaining altitude as I flaired. As the helicopter began to settle over the water, I increased the collective however, my hand was too far up preventing the governor from increasing the power in order to maintain lift and rotor rpm (see video).

OPERATOR/OWNER SAFETY RECOMMENDATION *(How could this accident/incident have been prevented?)*

I should move my hand further back on the collective to prevent stopping the governor from increasing the throttle.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)
