Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

The airplane suffered total damage and is unrecoverable. At the time of this report, the damages caused to the facilities of an external company is being evaluated. The airplane hit a fence and a few solar panels. See attached picture of airplane.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I, PIC during the accident, attempted to perform a soft field take off, after take off and climbing to about 100-200 ft airplane began left turning tendencies so right rudder was applied but aircraft kept turning to the left. Soon after airplane seemed to be stalling so I lowered the nose, yet was not able to recover speed.
