NARRATIVE HISTORY OF FLIGHT (Please type or print in ink.)

Describe what occurred in chronological order including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

8/6/2025. 1120

N500HT, based at 12TN

Beechcraft F33

The previous flight to the incident flight was a short pattern flight by me on Monday, 8/4/25, half hour, 2 landings, without any problems or concerns noted.

Following preflight checks 500HT taxied to the end of 23 Meadowlake 12TN for a planned VFR flight to KMNV. Plane had about 40 gals of fuel on board, more in the left tank. Winds were calm and since the destination was SE, the 23 takeoff was chosen. The plane spun around and stopped on the end of 23 for final checks. GPS programed and radio call made by the assisting pilot passenger.

Russ Carvin was PIC; In the right seat was a IFR qualified, multi-engine, experienced pilot. HT has a throw-over single yoke.

Plane accelerated to about 65 mph (800 feet down 23) with heavy right rudder and was on center line. PIC took his right hand off throttle to the yoke for rotation. Plane abruptly went hard left off the runway (about 45 degree). Upon leaving the runway it contacted large haybales and came to rest about 35 feet off the runway in the grass. No fire.

The door provided limited egress due to damage of the right wing. Both pilots exited the door and left the plane.

The passenger had minor first aid cuts and did not receive emergency help. The PIC had minor cuts associated with exiting the aircraft.

The emergency ELT alarmed, USAF contacted owner of record

The passenger called TYS tower to notify of accident.

1145 The PIC called 844.359.6982 and listened to the message.

1148 Call NTSB, line busy, tried three times.
