☒ Minor ☐ Destroyed
 ☐ Unknown

Aircraft Fire

- ☒ None ☐ Both Ground and In-Flight
☐ In-Flight ☐ Fire at Unknown Time
☐ On-Ground ☐ Unknown

Aircraft Explosion

- ☒ None ☐ Both Ground and In-Flight
☐ In-Flight ☐ Fire at Unknown Time
☐ On-Ground ☐ Unknown

Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

Small scratch to right sponson, scratch to hull on the keel of the hull about 4 ft in length. Slight removal of bondo/composite material in the later half of scratch.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Pilot was cleared to report mid-field right downwind for runway 34. Tower cleared pilot to land number 2 after Pilatus on left base for 34. Pilot uses positive affirmation when landing on water or runway "gear up/gear down, clear to land on water/land". Possible confusion of affirmation from non-towered landing procedures coupled with minor distractions from wind due to open cockpit wind noise, intimidation factor of radio communication with tower, combined with long downwind length due to long runway length may have let to pilot inadvertent failure to complete checklist after cleared for landing. Plane landed on hull.

OPERATOR/OWNER SAFETY RECOMMENDATION *(How could this accident/incident have been prevented?)*

There is a service advisory for updating PFD/MFD to call out gear position when certain conditions are met. Will preform update to equipment.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)
